We badly needed our garage door replaced as it was kind of falling apart at the seams. So I called ALL Garage Doors and Gates. They gave us a free estimate the same day. I had a couple other vendors come out and ALL Garage Doors and Gates has the best price for what I wanted. They got the job done fast and did a great job. Dana, the girl who answered my call was easy to work with and the installer did an amazing job and was super personable. Overall a great job all around. Thanks!

I called these folks mid evening and they were out bright and early the next day. My gate needed replacement before we sold the house to abide by code and All Garage Doors and Gates had a new one made and installed very quickly. Inspector loved their work. See you In our next home guys!

Overall great service! They were the first to respond to our inquiry on Yelp, they showed up the same day at the designated time, clearly explained the issue, gave a quote and fixed the door right then. Highly recommended

All garage doors and gates are truly the best at gate repair. They noticed the safety sensor issue and replaced it with new ones. Now I don't have to worry about my tenant's car getting it (again).

Called ALL Garage doors for a new garage door. They were the most professional and offered so many different styles. Had our new carriage house garage door installed within a few week and it's gorgeous!!

My husband and I went thru 2 other companies to TRY and fix my sliding gate. Finally we found All Garage Doors and Gates and Dana was super accommodating to our schedule (only on weekends). Ben arrived on time and right away noticed we needed to replace the motherboard. Done same day and we are SUPER HAPPY with this company.. Definitely recommending you to everyone!

ALL Garage Door and Gates Repair offers fantastic service all around! Honest review here, with great customer support from beginning to end of the process, Dana is amazing and works wonders and Eli is the best installer by far. The team are really informed and go the extra mile at every stage, professional, knowledgeable and honest, I would recommend them without a doubt. I shopped around a lot seeking information, a good price and honest reliable service and All Garage Door and Gates represented among the highest levels of customer service I have experienced. Information was accurate, price was reasonable, responses to queries were turned around very fast and terrific service. Answers were clear and where necessary detailed enough for us to make informed decisions quickly. If you're seeking an honest, fair and excellent service in your garage services, I would highly give them a call, you will not be disappointed!

You never sent me a link to discuss my job experience. I got the wonderful EFRAIN
Excellent job He loves what he does and it shows . When he finished and was opening and closing the door fir me I saw him smiling from ear to ear ! A gentleman very nice and kind to me . It was an excellent experience he was terrific I will recommend you and him to anyone that asks me.

I could not be happier with my garage door
Thank you Efrain God Bless you!
